

These are the dogs that StreetLife has sterilised - No 700 to 800. We could not do this without our supporters. Working together, we can reduce the number of unwanted puppies and stray dogs in the East Algarve.

Sterilisation Nº 700 - 1 July 2022

Laurent and Cécile live in a smallholding near Quelfes and we helped them with Ulysses and Mocky who, in 2019, "moved in".

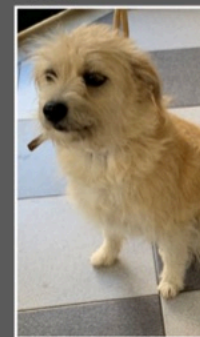

They have since adopted Mimo who decided to join their happy family because it's clearly a great place to be. They checked if he had a chip but (...of course) he didn't, so we arranged for him to be taken to our partner Vet to be snipped.

He does look fairly chilled doesn't he? ... completely underwhelmed at being our 700th doggie ?

Welcome to the family!

Figa 701

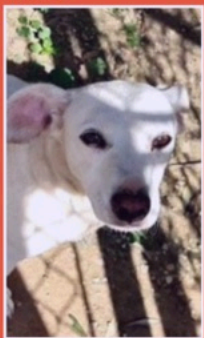

An early client back in 2018 was Gabriel and his father (Foxy and Polly – No 15 and 21). This time he contacted us about his neighbour Ernesto, whose dog Figa was pregnant and he had no job and no family support. We see this situation often and, since we knew Gabriel, we agreed to help Ernesto.

With a small donation, the job was done! Once again, we had the help of the younger generation who understand the problems and are (sometimes) willing to help.

Faisca 702

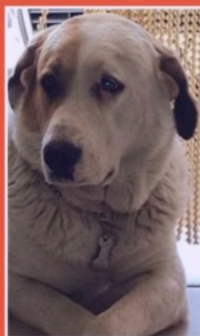

When StreetEye Carla visited Eudora and her husband about a dog they had rescued (Kuka No 703), she came across Faisca who had also been rescued by Eudora, after being abandoned. Concerned, StreetEye Carla addressed this situation which turned out to be infected mammary glands which needed surgery.

With an additional donation from Eudora, StreetLife managed to have both dogs done on the same day.

Great job! 😊

Kuka 703

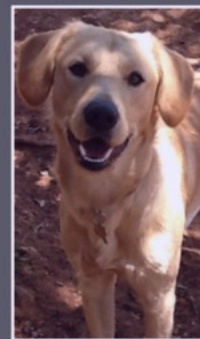

Kuka was rescued by Eudora's husband from a nearby campo area, with a litter. They managed to rehome the babies and kept Kuka, as they have a fenced area in the campo for their dogs. (Faisca No 702).

Of course, when Kuka goes on heat, all the chaps in the area want to visit so Eudora talked to APAR who suggested she contact StreetLife. With a donation from Eudora, Kuka will be litter free now!

Toby 704

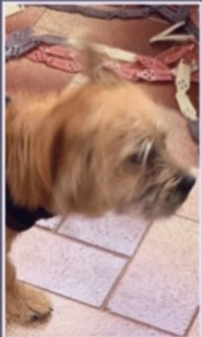

Jan vive perto de Loulé e resgatou alguns cães e StreetEye Dineke fez-lhe uma visita para ver como estava.

A jan pediu ajuda para que o jovem Toby seja cortado para não se meter em sarilhos com os outros cães e com uma doação da jan, concordámos.

Uma simples! 😊😊

Bingo 705

This is 6-month old little Bingo whose owner Carla, lives in Fuseta and took advantage of our promotion with the Junta de Freguesia in Moncarapacho.

We visited Carla and Bingo to assess the situation and agreed to help, because Carla also has another female dog so there's likely to be trouble.

All taken care of . . . 😊

Betinha 706

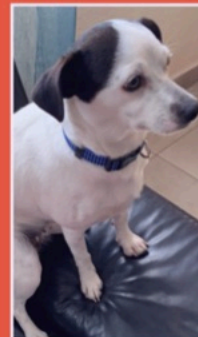

Betinha was rescued from a sad life - as a bull terrier cross she may have been used to breed so by law, must be sterilised and chipped.

Despite having a dog, Analidia decided to adopt her. Betinha is a survivor.... without vaccines, she had parvovirus! This had to be treated before anything else could be done.

Although safe now, Analidia was expecting her to go on heat, so StreetEye Carla visited to assess the situation and we decided to help.

Gabi 707

Joaquinha (Fuseta) and her husband who hasn't been working for a while, visited our StreetLife stall at a Moncarapacho art fair to ask about sterilising their two, small dogs... Gabi and Nina (No 708).

It's well known that there are many unsterilised dogs on the streets in the area! After a visit and with a small donation for each dog, we agreed to the sterilisation.

They may not be quieter, but at least there won't be any unwanted puppies!

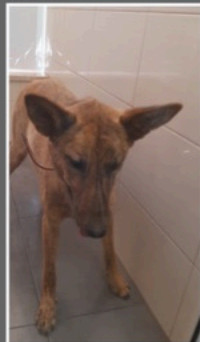

Nina 708

So here we have Nina, the other small, but also very energetic... and noisy, partner to Gabi (No 707). Joaquina was concerned about the many stray, unsterilised dogs in Fuseta, so she asked about both dogs being sterilised. We assessed the situation and with a small donation for each dog, we agreed to the sterilisation.

We're not sure if they'll be any quieter, but at least they'll be safe from unwanted litters of puppies.

Peanut 709

It's not always that one of our partner Vets, contacts us asking for help with a dog, but that's exactly what happened to little Peanut. Owner Jason took her to the Vet because she was pregnant.

The Vet (who we know well) called StreetLife to ask if we could help in this situation and we agreed because it was necessary to intervene. Everything went well and here she is being examined at the vet on the day of the surgery.

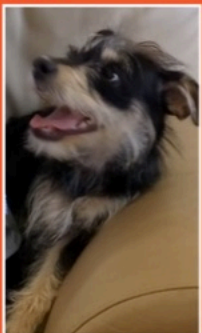

Sasha 710

Eve does a lot of rescue work in her area and asked us if we could help out with little Sasha who is around 6 months old. About to go on heat, everyone was concerned about Sasha who lives with Eve's other dogs.

We've known and worked with Eve for a long time, so we were happy to help

Laika 711

Margarida is 75 years old and lives alone, so she adopted Laika for company. Laika is a year old and has been vaccinated and chipped, but she's not sterilized. Margarida couldn't afford the normal cost of the procedure, so through a friend of a previous client, she found out about StreetLife.

StreetEye Carla made an evaluation and we agreed to help... everything went well!

Shiva 712

Magdalena and family live in Sitio do Pereiro. As they have a fenced "campo" area they decided to adopt two male puppies from APAR - Shiva and Surya (No 713). As they grew, they managed to escape and were often found in a neighbour's yard and fighting became an issue. Magdalena couldn't afford the full cost of sterilisation, so APAR directed her to StreetEye Carla who visited them and with a donation for each dog, we agreed to help. Hopefully things will be a bit quieter now! 😊

Surya 713

Magdalena and family live in Sitio do Pereiro. As they have a fenced "campo" area they decided to adopt two male puppies from APAR - Shiva (No 712) and Surya. It became obvious, as they grew, that they'd need to be snipped as they were escaping and bothering the dogs next door. Magdalena contacted APAR who directed her to StreetEye Carla. After a visit and with a donation for each dog, we agreed to help.

Snip, snip..... job done! 😊

Diva 714

Clare's neighbour in Faro saved Diva from a rubbish bin where she'd been dumped. Diva decided she wanted to move in with Clare to keep her and her other dog company, so Clare contacted StreetLife for help with her sterilisation.

Unfortunately, Diva went on heat and there were fears that she had become pregnant – fortunately this was not the case so she finally got seen by one of partner Vets and all is now good.

Lucy 715

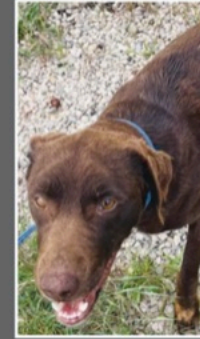

Fabrice came to see us at an Art Fair in Moncarapacho where we had a stand.

He asked for help to get the lovely little Lucy sterilised and a volunteer at a local animal shelter pointed him in our direction.

We explained what was involved and agreed to help with a donation.

All taken care of now. 😊

Lola 716

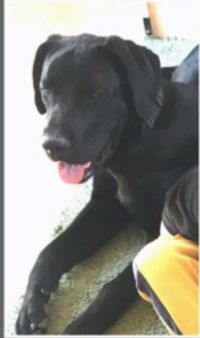

Here we have one-year old Lola who was abandoned without any access to food or water.

She was rescued and taken to A Dog's Life shelter where Lucy looks after her (...along with quite a few other dogs).

Lucy talked to us about help sterilising her and we agreed, so she's now ready for a new home.

Onix 717

Onix is a labrador / mastiff mix and about 8 months old – he's already about the same size as Marta's young son, so he's going to be a large boy!

Marta is a single mum living off-grid and adopted Onix from Cacela Dog Haven, who advised her to contact us when he was old enough to be snipped.

With a donation, we agreed to help and Marta was happy to go ahead.

Daisy 718

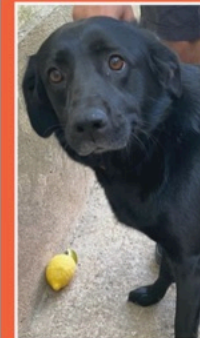

João is another client who took advantage of our promotion with the Freguesia de Moncarapacho, having heard about StreetLife from a neighbour in Fuseta who we'd recently helped.

We like it when word gets around!

We visited to see the situation and agreed to help with little Daisy, so all is now well in another local household.

Lucky 719

Lucky is about 3 years old and lives near Tavira. Her owner, Paulo has been out of work for a year or so, having been hit by a car.

He just didn't have the money to get Lucky sterilised, so a friend – Helena – told him about StreetLife. Helena was a client some time ago.

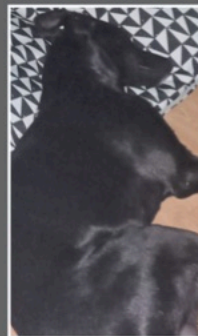

She helped him with the application and with a donation from her on Paulo's behalf, we agreed to help.

Bob 720

Our friends at ADAPO asked us to help Bob, who was found wandering the streets of Montenegro last May. He appeared well cared for and had a collar, but no microchip, so his rescuer took him home. She placed posters around Montenegro and posted a message on social media but without success. Since she shares a room it is impossible to keep him so Bob is off to a small shelter, but needed to be snipped before he went. Given the circumstances, we were happy to help.

Ralph 721

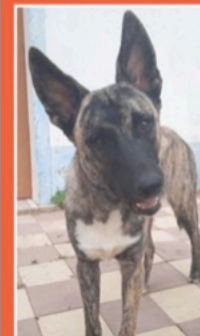

Márcia adopted Ralph from the Tavira Municipal kennels and was told that they would sterilise him when he was old enough as part of the deal.

Unfortunately, they seemed reluctant to answer any of Márcia's communications about getting him snipped, so she came to StreetLife and we agreed to help.

Bit of a poor show though Tavira!

Tyson 722

Jose and his family adopted one-year old Tyson from our friends over at Cacela Dog Haven, who recommended that they contact StreetLife to get him snipped since they are fairly low income.

We agreed with a small donation, so Tyson – despite his name – hopefully won't get into any trouble now.

Skye 723

This is little Skye who was rescued last December with her sisters and mummy Joana. They went to APAR. After the appropriate quarantine time (to make sure she didn't have any nasty diseases) she was adopted by Angelina. Unfortunately, Skye likes to pull the fencing area in her house so Angelina spent some money to make a new fence and asked APAR for help to sterilise Skye. StreetEye Carla investigated the situation and we agreed to help.

Pombinha 724

Ligia runs a café in Moncarapacho and is also a client. A customer, Julio, saw the StreetLife poster displayed at the café and asked Ligia how it worked.

Ligia told us about Julio so we visited him to assess the situation.

He has several dogs and wanted to get two 7-month old females sterilised to avoid "accidents".

We agreed to help, so here is Pombinha at the vet, waiting to be booked in. Sister Ritinha is No 725.

Ritinha 725

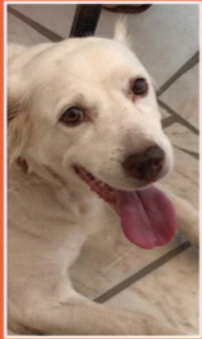

Ligia runs a café in Moncarapacho and is also a client. A customer, Julio, saw the StreetLife poster displayed at the café and asked Ligia how it worked.

Ligia told us about Julio so we visited him to assess the situation.

He has several dogs and wanted to get two 7-month old females sterilised to avoid "accidents".

We agreed to help, so here is Pombinha at the vet, waiting to be booked in. Sister Pombinha is No 724.

Cookie 726

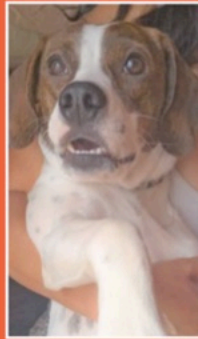

One of the StreetLife team was chatting to Davide (living in Moncarapacho), who expressed an interest in having 11-year old Cookie sterilised.

We met up a few days later to understand the situation and to meet Cookie.

We agreed to help and with a donation towards the costs, everything went well

Laika 727

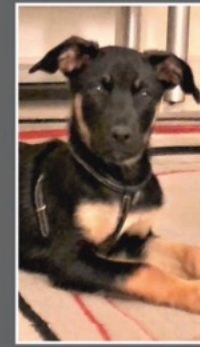

Sandra and Nuno live in Olhão and have two dogs - Laika and a male.

Nuno is a fisherman and Sandra doesn't work so they don't have a lot of money.

Sandra contacted StreetEye Carla to ask for help because Laika was pregnant and she couldn't afford the cost of sterilisation; we agreed to help and Sandra even made a small donation.

Little Mo 728

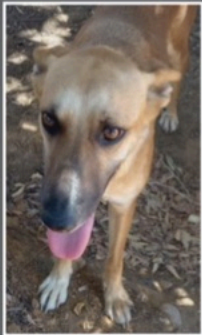

This is Little Mo..... rescued by our friend Eve, who rescues and helps rehome many puppies and stray dogs.

Suzanne – who lives in Sao Bras – decided to adopt her and asked if we could help with Little Mo's sterilisation so there were no accidents.

We agreed, and Suzanne made a generous donation towards the costs

Joaquina 729

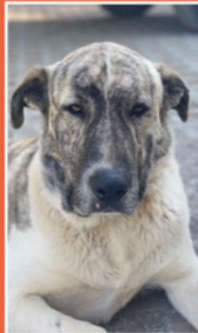

Joaquina and her sister were rescued by APAR in a rural area near Cerro Azul (Moncarapacho).

Her sister had seven babies with her and unfortunately, Joaquina was also pregnant!

StreetEye Carla got involved in collecting them all and suggested that we didn't need any more puppies, so we got Joaquina in to one of our partner Vets as soon as we could.

Job done! 😊

Juda 730

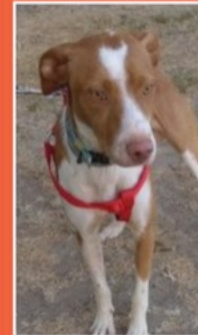

Mirelle lives near Fuseta and was fostering this gorgeous chap named Juda while she looked for a new home for him.

She asked if we could help with the snip for Juda before he was rehomed, so we visited to assess the situation and agreed to help.

Fortunately, Mirelle was successful in finding a new home for this lovely boy, so we met Juda and his new owner Diogo at the Vet and everything went well.

Pluto 731

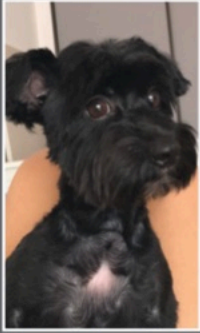

The young and very shy Pluto appeared at Sitio de Mata Lobos in Faro, hanging around, looking for food. After struggling for a few days to catch him, Lavi decided to take him home. After a visit to the Vet confirmed that there was no chip, Lavi decided to keep Pluto.... now he's well and happy.

As Lavi already has two other dogs, she contacted StreetEye Carla for help. She did not want Pluto jumping over the fence to make little Plutos with neighbours' females!

Snip completed.

Gucci 732

Little Gucci was adopted from a local shelter and promptly gave birth to 5 puppies.

Her new owner, Géraldine looked after them all and managed to rehome the puppies.

She came to us for help to sterilise Gucci so there were no more unplanned litters and with a donation from Géraldine, we agreed to help.

Pantufa 733

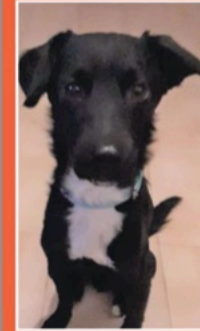

Luis visited us at an art fair earlier in the year and we helped him with Pipoca (No 671).

We knew at the time he had another little lady to be sterilised, so here is her friend Pantufa being checked in at the Vet.

Another nice straightforward one!

Jack 734

Tiara is an existing StreetLife client and she got back in contact with us again on behalf of her friend Tiago, who lives in Faro.

Tiago has two dogs – one male and one female – and was looking for help to sterilise little 2-year old Jack here. Tiara explained a bit more about the situation and even offered a donation on behalf of Tiago, so we readily agreed to help.

Nice friend! 😊

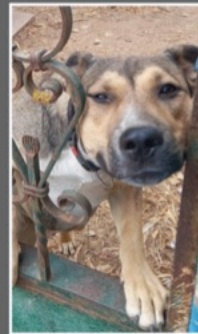

Teteia 735

Teteia lives with Helena in Santa Catarina. She was rescued with her sister a few months ago from a bad situation. Helena has other animals (mostly rescues) and StreetLife has helped before.

Her place is not fully fenced so when Teteia had her first heat some local lads came visiting and well, you can guess what happened – nature took its course. Helena contacted StreetEye Carla and we agreed to help again so there are no more little Teteias.

Pantera 736

Fernando had the misfortune to be robbed so he rescued a male from his local shelter (good) but the dog turned out to be somewhat scared of people (not so good). A friend offered him a female puppy who he called Pantera, and here she is.

The male dog (which he still has) was already snipped, but there are several other chaps around, so StreetEye Dineke offered to help Fernando get Pantera sterilised.

Good effort all round. 😊

Marvel 737

This cheeky chappie is a naughty boy... just look at that face! Marvel was abandoned in the street as a puppy and rescued by Cristina... a FAT (fosterer). She managed to rehome him with Catarina and her family in Olhão, but Marvel behaves badly and is somewhat destructive.

StreetEye Carla got involved and advised training/obedience classes and sterilisation, to which Catarina agreed.

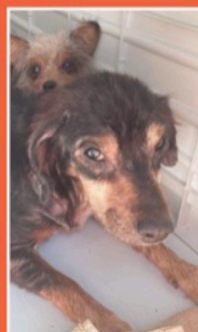

Fingers crossed now . . .

Branquinha 738

Carlos lives in Luz de Tavira along with his wife and several cats and dogs. This one, little Branquinha, became pregnant, so Carlos asked around for help because he doesn't have a job. His Vet told him about StreetLife, so we visited to assess the situation. He was happy to learn that we would sterilise Branquinha for free under our September promotion. All taken care of, but we'll be back to do some of his other dogs so we don't get a repeat situation.

Dackle 739

StreetEye Dineke was contacted by fellow rescuer Sandra.

Five dogs were removed from a hoarder's house in pretty bad condition and taken to one of our partner Vets for treatment and other surgeries.

After a while, two of them - Dackle and Xinzi - were ready for sterilisation prior to rehoming, so Dineke asked us to help out. Given the circumstances, we readily agreed.

Xinzi 740

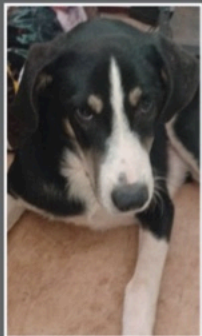

StreetEye Dineke was contacted by fellow rescuer Sandra.

Five dogs were removed from a hoarder's house in pretty bad condition and taken to one of our partner Vets for treatment and other surgeries.

After a while, two of them - Dackle and Xinzi - were ready for sterilisation prior to rehoming, so Dineke asked us to help out.

Given the circumstances, we readily agreed.

Lana 741

Cristina from Olhão contacted us for help sterilising this big floppy young girlie – 6 month old Lana, a Rafeira Alentejana.

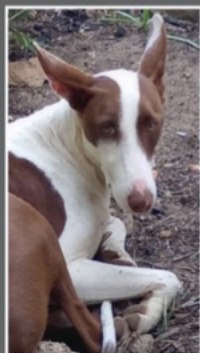

Because there are other dogs around where she spends the day with Cristina's husband, they were concerned about the obvious outcome.

We visited to assess the situation and see Lana... we then agreed to help.

All went well, so play time can continue.

Ibis 744

Ibis appeared one day near Filomena's house in Santa Bárbara de Nexe. As she lives in a small house with two dogs she couldn't keep Ibis, so she made an appeal on Facebook to see if anyone was looking for her. Filomena was also concerned for Ibis's safety as she lives close to the gypsies, so contacted StreetEye Carla for help.

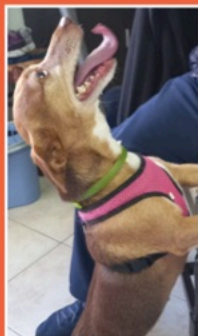

We agreed to support the request, and Ibis was eventually taken to the APAR shelter where we hope she finds her forever home soon.

Sammy 747

Poor Sammy was rescued in a shocking condition.... thin and in agony with part of a back leg missing..... the broken bone exposed. A lovely lady... Ana... appealed for help and Isabella and Dineke (who work in animal welfare) got him to the Vet for urgent treatment. The rest of his leg was amputated and he was sterilised, vaccinated and treated for tick fever. Sammy touched our hearts and StreetLife was honoured to help. He is ready now for his forever home. Please contact us if you're able to offer Sammy a golden basket!

Luna 742

Maria from Loulé contacted us for help with 5-year old Luna, because she also has a male dog who becomes problematic every time Luna goes on heat.

Fortunately, she has managed to keep them apart but other dogs have been turning up at her door now, so she decided to do the right thing.

Having recently lost her job she asked for help, so StreetEye Dineke visited Maria and took care of everything – thanks Dineke!

Chip 745

Jason is building a home just outside Moncarapacho and saw our promotion with the Junta de Freguesia so he went in to enquire

Chip had arrived at his plot and decided to stay to play with his other dogs and have a nice cosy bed to sleep on. We visited to see the situation and with a donation from Jason, agreed to help.

Everything went well and Chip is now a member of the clan.

Bilú 748

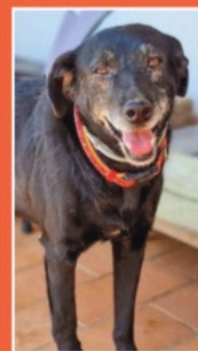

Bilú lives with Helena in Santa Catarina. She was rescued with her sister Teteia a few months ago from a bad situation (Teteia was sterilised by Streetlife – No 735).

Helena's place is not fully fenced, so when Bilú went on heat, the inevitable happened and she became pregnant.

So.... once again, StreetEye Carla swung into action and took care of things.

Teddy 743

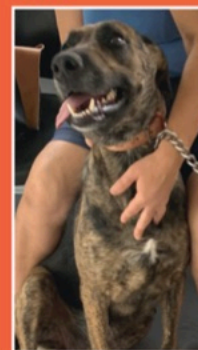

Lucy at A Dog's Life asked if we could help out with a snip for Teddy as the shelter was struggling financially.

We do help shelters from time to time since they are all inundated at the moment and most have no money. We all work together to help make a difference.

So, Teddy is now up for rehoming and won't be causing any trouble.

What a handsome boy he is

Fofinha 746

Lisdalia lives just outside Moncarapacho and has a few dogs which she wanted to sterilise.

She too saw our promotion with the Junta de Freguesia and applied for help.

We visited to assess the situation and agreed to help with three of her dogs, so here is number one – Fofinha.

Bear 749

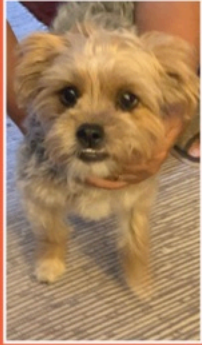

This big boy is Bear! He was rescued from a gypsy camp by Daniela, who is fostering him until he can be rehomed.

We've helped Daniela before so were happy to sponsor Bear's snip as a prerequisite to rehoming.

Fifi 750

Ana Cristina lives in São Bras and contacted StreetLife at the suggestion of her Vet about this cute little girl called Fifi!

We visited her to assess the situation and to meet Fifi.

With a small donation, which Ana Cristina was happy to provide, StreetLife agreed to help.

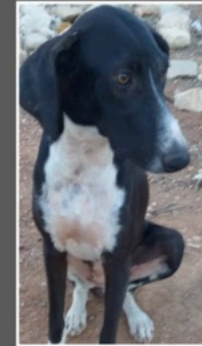

Mena 751

Mena who was pregnant, belongs to a neighbour of the man who contacted us... Domingos. The situation was quite chaotic so we agreed to help. She was hard to catch and eventually one of our partner vets had to sedate her with a dart. She was found to be carrying nine puppies, which would have made the situation even worse.

This is exactly what StreetLife is about. Well done Domingos, and thank you for your generous donation.

Nikita 752

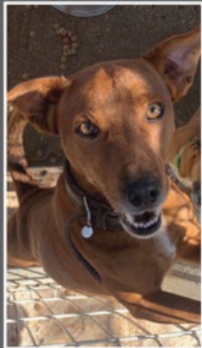

This is Nikita who was left in a gipsy camp in Pechão.

She was on heat at the time and it was more than likely that she'd become pregnant..... this is usually the case in these situations. A friend contacted StreetEye Carla who arranged to rescue her and take her to APAR.

We were happy to sponsor her sterilisation as a pre-requisite to rehoming.

Chico 753

This naughty chappie is Chico who lives with his sister near Olhão.

Carina applied for help on behalf of her parents who own Chico, because they are quite elderly and infirm. We visited to assess the situation and with a donation, we agreed to help.

They were happy that we could help and as we arrived at dinner time, Chico was full of bounce.

Molly 754

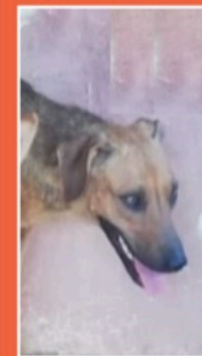

Lucy runs a small shelter called A Dog's Life and we help her from time to time.

All of the dog shelters are overloaded with abandoned dogs... this stretches their financial resources even taking into account the workload of the volunteers.

This is two-years old Molly who is up for rehoming now that she's been "done".

Ju 755

Ju and her sister, Joaquina (No 728) were rescued by APAR a while back.

Ju had recently given birth and good news..... all the puppies have been successfully rehomed. It was clearly time to sterilise Ju before any repeat performances.

Well done to APAR and ever-vigilant StreetEye Carla!

Preta 756

This is Preta who showed up at Rosália's mother's house. She was there for days and with no microchip or anybody searching for her, she stayed.

They didn't know if she became pregnant before or after arriving because Rosália's mother has a few male dogs. Once she'd had the litter, they found it a nightmare to take care of so many doggies.

StreetEye Carla swung into action and all is now taken care of – well done Carla! .

Tobias 757

This big girl is Tobias (yes – really!) who belongs to Beatriz.

Unfortunately, Beatriz has some domestic difficulties so had to leave home temporarily, along with Tobias, who subsequently went on heat. Tobias was "visited" by a male who jumped the fence to get to her.

Beatriz asked for help because her financial situation was not good, and we got Tobias into one of our partner vets quickly because she was pregnant.

Malhadinha 758

We helped Julio with two of his other dogs (No 724 and No 725) and he asked for two more (with a donation). They do have a few dogs so it's surprising there haven't been any accidents! So here is Malhadinha.

StreetLife couldn't be there when they arrived and trying to get photos at Julio's house is impossible with so many excited dogs! But all went well.

Pirolita 759

We helped Julio with two of his other dogs (No 724 and No 725) and he asked for two more (with a donation). They do have a few dogs so it's surprising there haven't been any accidents! So here is Pirolita.

StreetLife couldn't be there when they arrived and trying to get photos at Julio's house is impossible with so many excited dogs! But all went well.

760 Fofinha

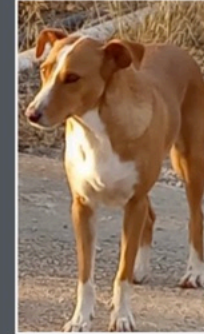

Lisdalia asked for help with three of her dogs and we have made one so far N(o. 746).

The second is the daughter, who looks a little like her mother and also calls her Cute.

Unfortunately we didn't get a picture this time, so let's leave this to your imagination!

Neusa 761

A good friend of StreetEye Carla contacted her about a female dog with two puppies in Pechão that she was feeding. This dog – named Neusa – keeps getting pregnant with every heat because of the other dogs in the area. So APAR took the two puppies and we agreed to help with Neusa so that there were no more litters.

She will stay in Pechão with a man who will look after her.

762 Dobie

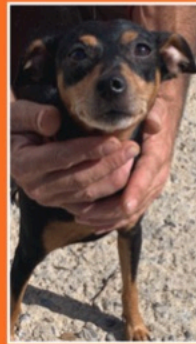

Dobie was found in the mountains with his Mum, Molly (No 754). Clearly not used to any positive human interaction, it's taken him time to trust humans.

Now you'll find Dobie constantly wagging his tail and wanting attention.

He loves toys, being active and playing with his Mum.

He's in "A Dog's Life" shelter run by Lucy waiting to be rehomed.

763 Nina

Carlos lives in Luz de Tavira along with his wife and several cats and dogs.

We "did" Branquinha" back in September (No 738) and said they would be back for more. So here is little Nina being restrained by Carlos because she's a little bit energetic and we were outside the house for the photo.

I don't think we're finished at that household yet . . .

764 Luna

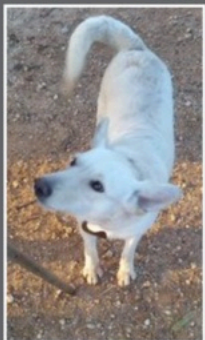

We helped Ana Cristina earlier (No 750) and she did tell us that she had another dog to be done. We agreed to help again so long as she made another donation.

Luna's surgery went without a hiccup and Ana Cristina is very happy.

We do not have a photo of Luna because unfortunately we could not be there at the time.

It happens when we are busy! 😊

765 Rolita

Manuel took advantage of our promotion with the Junta da Freguesia to get little Rolita sterilised and chipped.

Because he lives in the countryside with unfenced land, he was very keen for Rolita to be safe and to avoid unwanted puppies.

766 Lobo

Maud has been a StreetLife supporter for some time and we helped her in 2018.

She came to us again to see if we could help with Lobo who is about 10 years old. Additionally, Lobo had an infection which also needed attention.

All sorted!

767 Princesa

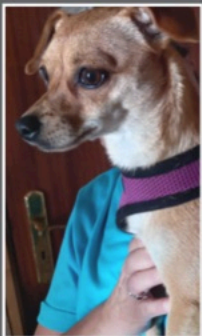

Sandra contacted us because a pregnant stray had arrived at her brother's house in Olhão and he was not in a position to deal with her.

We visited to assess the situation and agreed to get Princesa (as she was named) to one of our partner Vets as soon as possible.

Sandra also gave us a donation and Princesa now has a new home as well.

768 Fanny

StreetEye Dineke was contacted by Isabel who took little Fanny from her sister-in-law.

Fanny is only a year old, but the sister-in-law bought a Yorkshire puppy and didn't want her anymore.

So Isabel felt sorry for her and took her in.

This is exactly the kind of behaviour that creates the problems we're facing!

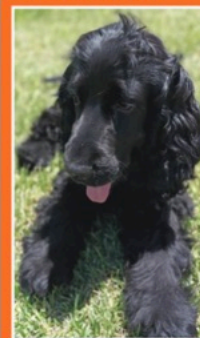

769 Cálita

StreetEye Carla was driving near Pechão when she saw this frightened little lady who was hiding in a drainage tunnel.

With help from Natalia, they managed to catch her and took her to the APAR shelter. She had no microchip (of course) and, despite multiple postings online, no-one came for her so they decided to call her Cálita and asked if we could help with her sterilisation.

770 Azeitona

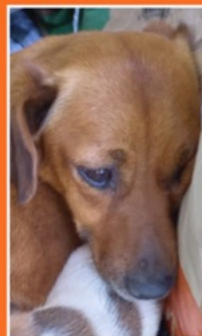

Andreia and her husband had two dogs that died last year, so her husband brought little Azeitona home.

Whilst Andreia is very happy with her new family member, she can't take Azeitona out when she's on heat because lots of dogs from a nearby gipsy camp cause problems.

Andreia knew of StreetLife and contacted StreetEye Carla to see if we could help.

771 India

India lives in the countryside with Bruno and his family. The space is not well fenced since the family does can't afford it, so every time India goes into heat, she gets pregnant.

The family can't have any more puppies so asked StreetEye Carla if we could help so that this cycle would not get repeated.

772 Faisca

Corina contacted us on behalf of a shepherd living in the mountains near São Brás de Alportel. There's no internet up there, and frequently no telephone either.

We met with Corina to discuss the situation and agreed to help Faisca who was about 10 months old when she went in for her surgery.

No unplanned pregnancies now!

773 Estrelinha

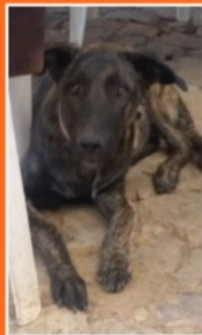

Vera from Moncarapacho asked for help with two of her dogs via our promotion with the Junta de Freguesia earlier this year. We agreed, but there were quite a few problems relating to transport to/from one of our Vets (it is the owner's responsibility).

With help from Carla and Salomé (who were both very patient in the circumstances) we finally got one of them – Estrelinha – in for sterilisation before there were any more accidents at the house. This one was hard work!

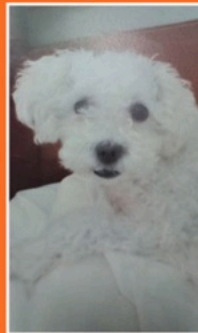

774 Zi

João lives in Quelfes where he is doing up an old house. He has two female "guard" dogs and this is Zi, who actually prefers to play with everyone rather than keep them away.

João took some persuading to get Zi sterilised (well done Lena and Natalia) because the plot is not yet fenced and she was going into heat soon and would undoubtedly get pregnant.

775 Daisy

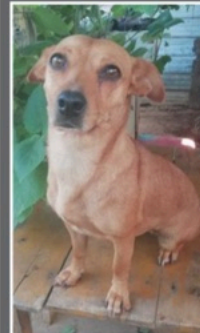

Little Daisy is about six years old and lives in Moncarapacho with Sara and her family.

Sara was keen to get Daisy sterilised but the cost was too high so when She heard about StreetLife, she asked for our help.

StreetEye Carla visited and with a donation from Sara, we agreed.

Sara was thrilled and happy to make a contribution.

776 Gigi

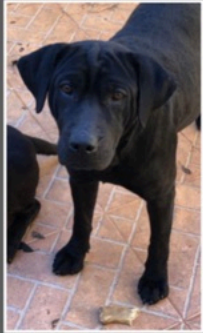

Little Gigi was found wandering along a country lane near Pechão.

Gigi's details were posted online but with no microchip nobody came forward to claim her so Luisa agreed to look after her on a foster basis until she could be rehomed. Luisa was not able to keep her because she already had quite a few pets.

Gigi went on heat but did not get pregnant (well done Luisa) so when that had finished it was time to sterilise her. StreetEye Carla made the necessary arrangements and all is good.

777 Ebony

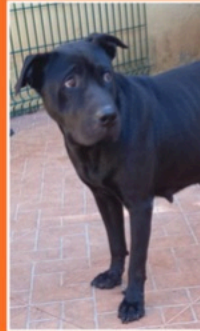

Isabelle spotted two pregnant dogs wandering the streets near Querença.

So, this is Ebony (Laila - No 778).

Neither had a microchip (no surprises there) and no-one came forward, so StreetEye Dineke got them into one of our partner Vets as soon as possible and they will be up for adoption in the near future,

778 Laila

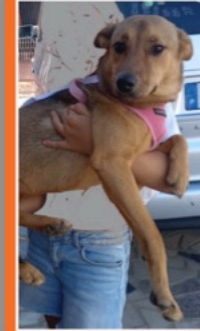

Isabelle spotted two pregnant dogs wandering the streets near Querença.

So, this is Laila (Ebony - No 777).

Neither had a microchip (no surprises there) and no-one came forward, so StreetEye Dineke got them into one of our partner Vets as soon as possible and they will be up for adoption in the near future,

779 Princesa

Princesa lives happily in Maragota with her family where she is very well treated.

She is currently 9 months old and there is a huge risk of her becoming pregnant, because there are also males in the backyard.

Owner Tania was very worried, so contacted StreetEye Carla who visited to assess the situation and with a donation that Tania was happy to make, we agreed to help.

780 Luna

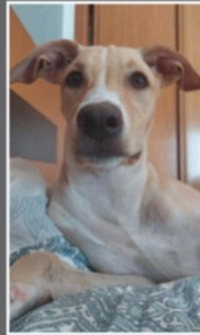

Luna is a young Rafeiro Alentejano who lives in Laranjeiro in an open field along with another friend (a pit bull male!)

Thankfully, Luna's owner Andreia realised that it would not be a very good idea to continue this arrangement and contacted StreetEye Carla.

Andreia is not working and lives with her husband and her daughter in an old house so we agreed to help.

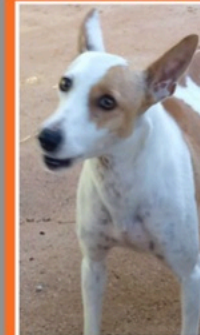

781 Skye

So here we have the 8 month old Skye who was adopted by Jéssica as the last one of a litter that she was fostering.

Jéssica's family does a lot with dogs and we have helped before, so were happy to do so again.

782 Estrelinha

Estrelinha and her brother were offered to José. So far everything has gone well, but the last time Estrelinha went into heat, in a moment of carelessness, she became pregnant.

José asked for help because he and his wife can no longer have any more animals, as they already have 4 (two bitches and two dogs). All sorted with help from StreetEye Carla.

783 Diana

A while ago, we sterilised Faisca (No 772) who belonged to a shepherd near São Brás.

Corina contacted us again about the second female at the same house. This is Diana who is about 2 years old and had 8 puppies at the end of August, so it was time to ensure that there were no more unplanned litters that needed rehoming.

Well done Corina! 😊

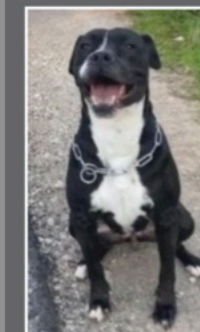

784 Kiba

José lives in the countryside near São Brás. He likes to help animals, so decided to adopt little Kiba from a nearby litter. She's a happy soul but does sometimes go walkabout (more like runabout) and José is rightly concerned that she'll come back pregnant in due course.

We're still waiting for a photo of Kiba because we couldn't get one at the time.

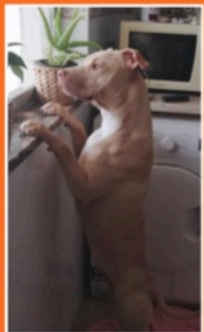

785 Bulla

Sonia, a friend of StreetEye Dineke, asked us to help out with Bulla, whose owner went to live with his girlfriend and left Bulla at her mother's house alone for most of the day.

The mother didn't even know that Bulla is a pit bull and by law must be sterilised and chipped, so Dineke suggested that Sonia (who already has a lot of dogs herself) contact StreetLife to regularise the situation.

786 Clara

Paula is a nice lady and who loves animals but lives in Fuseta in a house without a fenced area. She has 4 pit bulls – two boys and two girls!

In November, the two girls were on heat at virtually the same time and managed to get out. Paula can't afford to sterilise and chip all 4 dogs as required by law, so we're hoping to sterilise them all, starting with Clara. After that Sasha then the two boys Pac and Vlad will be done.

StreetEye Carla is managing this little lot – so good luck Carla!

787 Tania

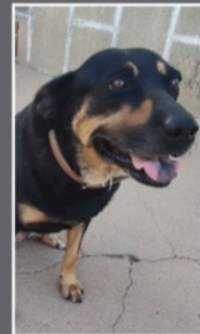

We helped Nathalie with a female dog, Nina because she had been pregnant twice previously (No 691).

Nathalie contacted StreetEye Carla again, to ask if we could help with another one of her female dogs, Tania, which we were happy to do.

There are still two males who we are going to snip, Matrix and Brutus, but at the moment at least the females will not be producing anymore unwanted puppies... and the boys are on our radar!

788 Cookie

Cookie is a sweet girl but had the misfortune that her owner had to go to England and could not take her with him.

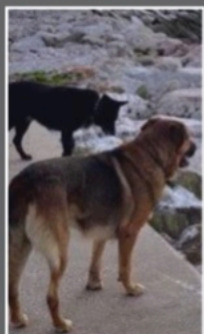

She is in the care of his wife Micaela, who, at the end of the year, will also move to England.

So Micaela is trying to find Cookie a new home; but she will need to be sterilised before she is rehomed so StreetEye Carla swung into action once again and took care of things.

Let's hope Cookie finds her forever home soon

789/790 Luis

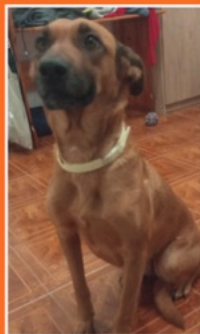

Ginie, from Sterilise our Strays, has helped a jobless and homeless dog lover who has been sleeping in his car with his three dogs. His dogs often get food instead of Luis!

Ginie and other charities have helped him with clothes and food, helping him to get his life back.

StreetLife has helped sterilise two of his dogs... the third had already been done.

StreetLife wishes Luis and his doggies the best ever 2023 ... at least he now knows people care!

791 Nala

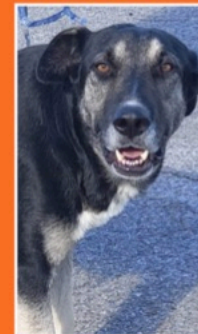

Ariana is a university student who contacted us about 3-year old Nala who she (sensibly) wanted to sterilise but simply didn't have the money.

We discussed the situation and agreed to help. So, now both Ariana and Nala can have a happy and puppy-free New Year.

792 Negona

StreetLife was contacted by Oksana about a dog that arrived at a carpenter's shop near Esteval. We asked StreetEye Dineke to investigate and it turns out that Negona is being fed and looked after by the workers. She has already had 2 litters and one of the puppies – a 4 month old male – is still there, so one of the workers provided his name for her chip registration.

Dineke made the necessary arrangements for her sterilisation and all is taken care of. We might have to go back soon for the young male!

793 Mulan

After several months on the street, injured and possibly pregnant, Mulan's days of suffering are over.

APAR finally managed to capture this little girlie and asked StreetLife if we would help with her sterilisation.

Of course we said YES, we were only too happy to help.

It is now the start of a new life for Mulan.

This photo was taken just after she was rescued off the street by APAR

794 Ariel

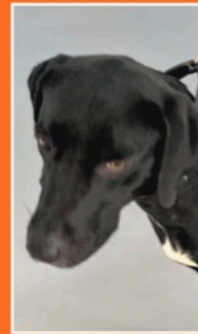

This is little Ariel, rescued from the streets by APAR and suspected to be pregnant.

One of our StreetEyes, Roseane asked if we would help with the sterilisation and Ariel was booked in with one of our partner Vets as quickly as possible.

Every is okay now and Ariel will have a puppy free life.

795 Mel

In November 2022 Carla from Olhão contacted us about Mel who was 18 months old at the time. We agreed to help but then Mel went on heat so we had to postpone everything for 30 days.

Unfortunately, Mel was "visited" during that time and so became pregnant, so when Carla contacted us again we got Mel in to one of our partner Vets as soon as possible.

We all met up at the Vet and here is Mel just being checked in.

796
Kuro

Debbie contacted us because she is looking after this chappie – Kuro – whose owner died and the daughter lives in the UK.

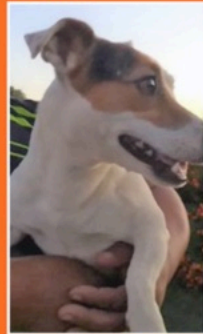

Unfortunately, Kuro has been fighting with Debbie's other male dog so she was advised to get him sterilised to see if it calms him down a bit.

Having investigated the situation we agreed to help and Kuro has now been snipped.

Fingers crossed that things are a bit quieter now.

799
Nina

Nina is a lovely little Jack Russell who runs free on a farm, with other friends.

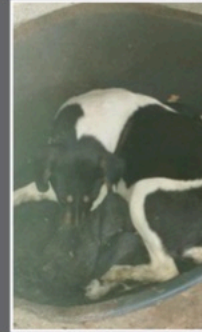

Unfortunately, every time she goes on heat, she gets pregnant!

Her owner Fábio says she always finds a way to mate, so he finally asked StreetEye Carla for help because he couldn't afford the full cost and didn't want any more puppies running around!

After a visit from Carla, we agreed to help.

All finally fixed! 😊

797
Moana

This is 1 year old Moana who was a street dog and very pregnant.

She was finally captured by Natalia from APAR but we had to wait a while before sterilisation because she had to be tranquilised to be caught (more anaesthetic so soon is not advised).

All is now good and she's at the APAR shelter recovering with some new friends.

798
Joana

Ana contacted us on behalf of her mother-in-law Salomé who we had helped in the past.

Here is little Joana who turned up one day, probably wanting to stay with all the other dogs that Salomé and her husband have running around their house near Moncarapacho.

We visited to assess the situation and with a kind donation from Salomé, we agreed to help.

800
Fofinha

Mark contacted us about his elderly neighbour Clarisse who lives on a tiny pension. Her previous dog got pregnant by a neighbour's dog but died recently so she got little Fofinha to replace her.

Clarisse was happy to get Fofinha sterilised because of her previous experience but simply couldn't afford it, so Mark offered to help, even driving her to the vet. All went well and Mark even made a generous donation.

Happiness all round! 😊

Together, we can make the difference.
Thank you for your support!
